

# Endian Hotspot Series VS Endian UTM Security Gateways

## Compare and choose the solution that fits your business

### Endian Hotspot Series Secure and quick Internet access

Designed to offer quick and secure Internet access to guests, customers and employees, Endian Hotspot is an intuitive product, easy to use and to maintain. It provides easy and stable Internet access with no risk of bandwidth saturation or abuse by users on the web.

### Endian UTM Security Gateways Connect and protect your network

The all-in-one, full Unified Threat Management (UTM) appliance that protects your office network from external threats. A product that is easy to use, requires little administration and includes a powerful Hotspot and a high performance VPN service.
