Endian Hotspot 500
Fast and secure Internet access

The ideal solution for medium size businesses that need to separate guest WiFi access from the corporate one. It is also excellent for hotels that manage hundreds of Internet connections every day. Up to 500 concurrent users will be able to connect to the Internet through the Endian Hotspot 500. The appliance guarantees best-in-class operating performances. It is easy to setup and includes features that secure and elevate the user experience.

Track and secure your guests navigation
Be sure that your guests do not browse illegal or inappropriate websites. Block obscene, racist or violent webpages. Use the Endian Hotspot web filter, that categorizes over 140,000,000 pages, to avoid any contact of minors with improper contents. Secure navigation from viruses and other malware through a powerful anti-virus.

Ideal for chain stores and branch offices
The Endian Hotspot appliances support master - satellite configurations. The Hotspot 500 and 1500 can be installed in the head quarter to centrally manage the users and the portal configuration, while the Hotspot 150 is the ideal satellite to provide Internet access in the remote locations.

Integration with third-party portals
If you already own a software program for billing, you can integrate it with Endian Hotspot. In this way you will be able to manage all your Internet users and the other services of your hotel through a single interface.

Integrated marketing platform
The Endian Hotspot is not only a service for your customers, but a smart tool to promote your activity as well. The captive portal is completely customizable: highlight special offers and ongoing promotions, show your visitors your added value.

Endian Hotspot 500
Concurrent Users  up to 500
Throughput  500 Mbit/s
Recommended for  Large hotels, campsites, medium sized businesses, schools, museums, healthcare facilities

Safe WiFi connection  Marketing Platform  Social Login
Endian Hotspot Features

## Hotspot

### User Management
- Authentication through
  - Local or external RADIUS

- Pre/postpaid and free tickets
- Time/traffic-based tickets
- Cyclic/recurring tickets (daily, weekly, monthly, yearly)
- Single-click ticket generation (Quick ticket)
- Configurable ticket and account validity
- MAC address tracking for free hotspots
- Remember user after first authentication (SmartLogin)

## Networking

### Uplink Management
- Multiple WAN uplink support
- Multiple public IP addresses
- Automatic WAN uplink failover
- Monitoring of WAN uplinks
- Uplink types: Ethernet (static/DHCP), PPPoE, PPTP
- Support for 3G / 4G USB dongles

### Network Address Translation (NAT)
- Destination NAT
- Incoming routed traffic
- One-to-one NAT
- Source NAT (SNAT)

### Encryption
- SSL-encrypted captive portal
- SSL-encrypted administration interface
- SSL-encrypted VPN connections between master and satellite systems
- Encrypted backups via email

## Security

### Threat Protection
- Stateful packet firewall
- Application control
- SYN/ICMP flood protection
- DNS proxy/routing
- Anti-spyware
- Phishing protection
- Transparent HTTP/HTTPS web filtering
- Cyren URL filter with 140 million categorized URLs
- SafeSearch enforcement
- Time based access control with multiple time intervals
- Anti-virus

### Logging and Reporting
- OpenVPN
- Native VPN client app for Microsoft Windows and Apple OS X
- Support for mobile devices (Android, iOS)
- Support for VPN over HTTP Proxy
- VPN client-to-site (roadwarrior)
- VPN failover
- VPN user and group management

## Management Interface

### Administration
- Centralized management through Endian Network
- Easy web-based administration
- Multi-language web-interface
- Secure remote SSH/SCP access
- Serial console
- Centralized updates through Endian Network
- Scheduled automatic backups
- Instant recovery / Backup to USB stick (Endian Recovery Key)
- Different user roles for administrator, hotspot administrator and hotspot account editor
