

Erika ★★★★★
SPA & Relax Hotel | Südtirol

The satisfaction of your customers begins with the Hotspot

Boost your web marketing with the Endian solution for hospitality.

Hotel Erika is more than a marvelous five stars hotel complex in the town of Dorf Tirol, in South Tyrol: it is indeed a successful venue that stands out for the quality of its facilities, the kindness and caring of the personnel, and the overall efficiency and variety of its services.

Speaking about fundamental comforts, a **good Internet Wi-Fi connection** is always a must for the guests, with all their personal devices.

For Hotel Erika and all our partners who have chosen Endian Hotspot, **providing an excellent and easy to access Internet connection naturally drives engagement and popularity on social media.**

Promotion? It's free and social

The Internet has become increasingly essential to promote the hospitality offering and to make the business grow. Endian Hotspot gives hotels the opportunity to amplify the word-of-mouth and create or strengthen their reputation all across the web.

How? When the guests access to the hotel Wi-Fi, they are invited to Like or to share a post or a tweet. In this way, the hotel's social accounts gain visibility and the hotel becomes more and more popular.

Only good reviews

"A high-level accommodation has to offer a reliable, fast and user-friendly Internet connection, and we found all these features in the Endian Hotspot. Our network is well shielded and customers are really happy with the service we provide." **says Patrick Nestl, owner of Erika Hotel.**

For business and leisure travelers a good Wi-Fi connection is one of the discriminating factors in the choice of the right hotel. It is not considered a plus anymore but a must have, non-negotiable amenity.

An unforgettable experience usually relies on details: like having access to an excellent Wi-Fi connection. Your satisfied guests will be much more motivated to spread their sentiment about your location with a good review underlining the high quality of the service. **A good, viral and free promotion for your hotel!**
